Principal's Message

"Intelligence is the ability to adapt to change".-
Stephen Hawking

Welcome to the Leeladevi Parasmal Sancheti Eng. Med. (Sr. Sec.) School, Vidyawadi!

The prospectus you read today will not only answer your questions about our school but also enlighten you to a new and profound way of thinking academics. Our prospectus showcases the wealth of academics, activities and experiences we offer our students. It is said that school days are the best days of our lives. The first step on the epic journey of life begins at this threshold where you redraw yourself as a seeker Education here is complete with academic excellence along with co-curricular, extra-curricular activities and sports. The school constantly imbibes, updates and upgrades itself with latest innovations in pedagogy. An array of events and activities are incorporated in the school calendar for your perusal. While the COVID-19 pandemic disrupted normal life across the world our teachers shifted gears immediately in response to school closures and switched to new modalities of online teaching. There is no lockdown on learning; this process is spontaneous with effortlessly brilliant faculty and staff mediating it every day. Our students are acquiring virtual learning skills and developing into smarter techno-savvy self-learners. They are already on their way acquiring knowledge of coding, artificial intelligence and machine learning. Therefore, be optimistic and have a friendly approach towards virtual platforms. L.P.S. Eng. Med. School too came out of this tumultuous situation with flying colors; needless to say that during this unprecedented period, our school was the only school in our region, which could conduct virtual classes for its students on a scheduled time-table. In this writing, I also wish to express my gratitude for the parent community of our school for their immense faith in us.

We look forward to expanding our already existing harmonious relationship between educators and parents. Through collaborative efforts we will achieve much more in the years to follow. Let us together make each year better, through work, through service; being a positive influence in our students' lives. It is also worth noting that the K+ student segment in our school is achieved through a meticulously planned management system and the entire management stands committed to keeping the wheels of progress moving. Being a part of team Vidyawadi is indeed a profound opportunity and distinct privilege to contribute in shaping the nation by providing quality education to our girls. For any queries or concerns, you can contact us and we look forward to your personal visit to our school with hope of continued wishes and support for a brighter tomorrow.

Thank You.

Principal

“Education is not the learning of facts but the training of the mind to think”

Albert Einstein

We are assured of the fact that our children not only learn but are moulded to train their mind to 'Create'. Our school will lead our children on a road-that is less traversed i.e. a road of compassion, care, consideration and concern.

Here children are encouraged to

- Be involved and concentrate.
- Choose their path with optimistic approach.
- Find new & creative ideas.

A STEP TOWARDS BECOMING BETTER HUMAN BEINGS.

A Journey from Offline to Online

The COVID-19 pandemic has disrupted education systems globally, affecting the most vulnerable learners the hardest. The pandemic caused further shocks to the system with schools forced to shut down during the lockdown period, and the transition of students and teachers to online teaching-learning.

The task was to how to make the online classes fruitful for our children. We can proudly say that during this crucial time too our institute and the only one in the overall district came up with the best solution providing education to our students using the Hi-techs. We not only switched for learning but gave way to different activities through the online sessions, concentrating on the appropriate progress of our scholars.

Let's have a glance of the transformation:

Academic Excellence and Curriculum Breadth

Pre-Primary

The Pre-Primary wing of the school comprises of classes **Nursery to Prep** and caters to the needs of early childhood development. The environment here is child friendly. The **classrooms are colourful** and located in the junior wing where they tend to learn social skills, develop verbal ability and imbibe the skills and joy of creativity through art and craft. The integral parts of the curriculum are - recognition, reading and writing of the Hindi and English letters and basic arithmetical concepts.

Primary (I to V)

At this level, children are exposed to formal academics.

The young ones are expected to spend more time in activities that enhance their cognitive, emotional, social, physical and motor development. For this group 'Learning by Doing' is the approach.

Middle (VI to VIII)

The school puts equal emphasis on both curricular and co-curricular activities. Curriculum follows CBSE guidelines and co-curricular activities include Socially Useful & Productive Work (S.U.P.W.) & Physical and Health Education.

Secondary (IX & X)

In class IX & X children are geared to focus on academics to do well in board exam. However, the school understands the importance of continuing with art, craft and music for all-round development.

Senior Secondary

Class XI & XII curriculum has been divided into three streams

Science	Commerce	Humanities (Arts)
English Core	English Core	English Elective
Physics	Accountancy	Political Science
Chemistry	Business Studies	History
Maths/Biology	Economics	Economics/Geography/ Music /Hindustani Vocal
Hindi Core/ Computer Science Multimedia & Web Tech. Dance (Kathak)/Painting	Hindi Core/Computer Science Maths/Multimedia & Web Tech. Dance (Kathak)/Painting	Hindi Core/ Computer Science Maths/Multimedia & Web Tech. Dance (Kathak)/Painting
Vocational Courses: 1) Information Technology 2) Food Nutrition & Dietetics		

Assessment / Evaluation

Cbse has suggested a new evaluation pattern which aims to boost competency-based education. The academic session is moduled according to New Education Policy which aims at an inclusive, participatory and holistic approach, however particularly emphasising on the development of the creative potential of each individual. It is based on the principle that education must develop the 'Foundational Capacities' of Literacy and Numeracy and 'High-Order Cognitive Capacities', such as critical thinking and problem solving and also Social, Ethical, and Emotional Capacities and Dispositions. The pattern will include periodic assessment, internal assessment/project work/practical and theory exam.

Co-curricular Activities

House System

To help students to excel in personal and professional skills through co-curricular activities, the total student strength of the school is divided into four houses; Rani Lakshmi Bai, Padmavati, Sarojini Naidu and Vijaya Lakshmi. Inter - house competitions teach them tolerance and team work, aesthetics and creativity, reading and writing besides getting improved in various sports and indoor games. Each house has teacher mentors, a student captain and a vice - captain.

Literary Activities:

Various co-curricular activities are conducted through inter house competitions such as Debate, Extempore, Elocution, Group discussion, Quiz, Essay Writing, Poem recitation, Sanskrit Shloka recitation, Thought presentation, Declamation etc.

Art & Craft Activities:

In order to enhance the aesthetic skills of the students various creative activities are conducted such as Best out of waste, Mehendi layout , Gift wrapping , Rangoli making , Card & Bookmarks making ,Paper cutting & folding, Face painting, Collage making, Drawing & Painting, Poster making etc.

Cultural Activities:

Various cultural activities are conducted throughout the year such as Solo & Group dance, Solo & Group song, Skit, Fashion show, Fancy dress, Pantomime , Drama, etc. The school also organizes and sends students for various interschool competitions like Debate, Dance and Quiz etc. This is done in order to install confidence and help them have a better world view.

Workshops:

Certain work shops are organized such as Candle and Diya making, Good Health and Lifestyle, Nature-walk, Kite-Making, Art and Craft, Manners & Etiquettes etc. are organized on time to time.

Our Unique features

L.P.S. Vidyawadi provides a platform to develop variety of skills and co-curricular activities which make learning fun.

During the two years I spent here, I met a new me and learnt a lot more than rote learning. I must say, "Great school, cooperative management, amazing teachers, lovely staff and lots of support." I'll always be thankful to this school for their guidance and encouragement which helped me in pushing myself to bring the best of my potential and progress each day.

Thank you L.P.S. for being a great support throughout.

My ten years at L.P.S. were great and I had a number of memories to cherish for lifetime. It was full of learning and grooming oneself. It gave me an opportunity to meet different types of people and learn many things.

L.P.S. is a place where students come from different – different states, diverse culture and religion but still there is no place of inequality for any of the opportunity provided.

"Changes are constant in our life, but these changes should be in the right direction."

And in case of my life L.P.S. School has been a beam of light in darkness. Here I learnt to enhance my ideas from basic to pro level.

This mesmerizing place has always provided me with the opportunities at my doorstep to find a real me and helped me to see every direction with a positive approach. I learnt what the future holds for me.

It was a brilliant experience to come to a heaven like L.P.S. Vidyawadi. This place has given me confidence to achieve something that I used to think was impossible. The environment in which we study is fascinating, the way the teachers teach with creative skills and guidance regarding career build up is impressive. I will always cherish the memories created at this place. Vidyawadi has been like a beam of light that helped me to recognize the capability to do something good for the society and my country and can become an independent girl.

The journey of incredible twelve years! Which I had spent as being a part of Vidyawadi family (L.P.S. family) are and will always remain the most cherishable years of my life. These twelve years have been both academically challenging, emotionally and socially nurturing. "The level of attention which is given to every individual is second to none in Vidyawadi" I would also love to express my gratitude for connecting it to the small villages and giving the girls an extraordinary chance to empower themselves with good quality education.

Being a Teacher in Vidyawadi it enabled me to extend my thinking to accelerate my teaching and learning abilities and creating conditions which encourage learners to want to learn. It is a magnificent working environment where work-life equilibrium is well maintained.

PGT (Geography)

A School is not just an institute where one can learn, it is infact an embodiment of art, culture and all qualities a child should possess to become successful in life. L.P.S. as a school fulfills all the above criteria and I, as a teacher am overjoyed to be a part of it and hope to contribute to its future endeavors.
